CONTENTS VOLUME 144

Issue 1

HUMAN AND ANIMAL MYCOLOGY

Isolation of a human serum protein that inhibits the growth of *Cryptococcus neoformans* – Shanti Duvvuru, Elmer Brummer, Remo Morelli & David A. Stevens 1–7

Host organism defense by a peptide-polysaccharide extracted from the fungus *Sporothrix schenckii* – Iracilda Zeppone Carlos, Diana Bridon da Graça Sgarbi & Marisa Campos Polesi Placeres 9–14

In vitro activity of antimycotic agents determined by E-test method against vaginal *Candida* species – Regina Celia Candido, Maria Regina Torqueti Toloi, Silvio Antonio Franceschini, Flaviane Ramos Garcia & Elaine Cristina Manini Minto 15–20

In vitro effect of lung surfactant on alveolar macrophage defence mechanisms against *Cryptococcus neoformans* – N.T. Gross, P. Camner, M. Chinchilla & C. Jarstrand 21–27

Experimental zygomycosis in rabbits: Clinicopathological studies – Jatain Sondhi, P.P. Gupta & N. Sood 29–37

Ecology of cycloheximide-resistant fungi in field soils receiving raw city wastewater or normal irrigation water – M. S. Ali-Shtayeh, Rana M.F. Jamous & S.I. Abu-Ghdeib 39–54

MYCOTOXICOSES AND MYCOTOXINS

Extracellular enzymatic activity of *Fusarium* section *Liseola* isolates – G. Castellá, M. R. Bragulat & F. J. Cabañes 55–60

Issue 2

HUMAN AND ANIMAL MYCOLOGY

Pathogenicities and GP43kDa gene of three *Paracoccidioides brasiliensis* isolates originated from a nine-banded armadillo (*Dasypus novemcinctus*) – Ayako Sano, Julio Defaveri, Reiko Tanaka, Koji Yokoyama, Nobuyuki Kurita, Marcello Franco, Kunie Iabuki R. Coelho, Eduardo Bagagli, Mario R. Montenegro, Makoto Miyaji & Kazuko Nishimura 61–65

Pathogenicity of *Hansenula anomala* in a model of immunocompromised mice – J.R. Cermeño-Vivas, J.M. Torres-Rodríguez, J.M. Corominas & N. Madrenys 67–71

Isolation of *Hanseniaspora uvarum (Kloeckera apiculata)* in humans – Pedro García-Martos, Juan Manuel Hernández-Molina, Fátima Galán, Juan Ricardo Ruiz-Henestrosa, Rebeca García-Agudo, María Jesús Palomo & José Mira 73–75

ENTOMOPATHOGENIC FUNGI

Survey of termite-inhabited soil and mosquito breeding sites in Lucknow, India for potential mycopathogens of *Anopheles stephensi* – Banani Sur, Vinod Bihari, Abha Sharma & Samar K. Basu 77–80

PLANT MYCOLOGY AND CROP PROTECTION

First record of *Cercospora pistiae* causing leaf spot of water lettuce (*Pistia stratioites*) in Brazil, with particular reference to weed biocontrol – R.W. Barreto, H.C. Evans & R.E. Hanada 81–85

Fungicidal and binding properties of three plant peptides – Anthony J. De Lucca, Thomas J. Jacks & Willem J. Broekaert 87–91

Contribution to the study of the chemical composition of *Verticillium albo-atrum* secretions in liquid media – A. El Aissami, H. El Amri, N. Mrabet, R. Chekti & H. Lahlou 93–95

MYCOTOXICOSES AND MYCOTOXINS

Relationship between *Fusarium graminearum* and *Alternaria alternata* contamination and deoxynivalenol occurrence on Argentinian durum wheat – H.H.L. González, E.J. Martínez, A. Pacin & S.L. Resnik 97–102

Mycotoxin production and cytotoxicity of *Fusarium* strains isolated from Norwegian cereals – Wenche Langseth, Aksel Bernhoft, Thomas Rundberget, Barbara Kosiak & Manfred Gareis 103–113

Synthesis of sterigmatocystin derivatives and their biotransformation to aflatoxins by a blocked mutant of *Aspergillus parasiticus* – Robert M. Gengan, Anil A. Chuturgoon, Dulcie A. Mulholland & Michael F. Dutton 115–122

BOOK REVIEW: Fran Fisher and Norma B. Cook, *Fundamentals of Diagnostic Mycology* (Norman L. Goodman) 123

Issue 3

HUMAN AND ANIMAL MYCOLOGY

Relationship between thigmotropism and *Candida* biofilm formation *in vitro* – Hiroki Nikawa, Hiroko Nishimura, Taizo Hamada, Seicho Makihira & Lakshman P. Samaranayake 125–129

Role of the armadillo *Dasypus novemcinctus* in the epidemiology of paracoccidioidomycosis – Mario León Silva Vergara & Roberto Martinez 131–133

Candida biotypes isolated from clinical specimens in Malaysia – K.P. Ng, M. Madasamy, T.L. Saw, A. Baki, J. He & T.S. Soo-Hoo 135–140

A murine model of zygomycosis by *Cunninghamella bertholletiae* – Akira Honda, Katsuhiko Kamei, Hiromichi Unno, Kenzo Hiroshima, Takayuki Kuriyama & Makoto Miyaji 141–146

Expression of the complement-binding protein (MP60) of *Candida albicans* in experimental vaginitis – A. Stringaro, P. Crateri, D. Adriani, G. Arancia, A. Cassone, R.A. Calderone & F. De Bernardis 147–152

PLANT MYCOLOGY AND CROP PROTECTION

Influence of commercially derived lipids and a surfactant on the mode of germination and process of germ-tube formation in primary conidia of two species of *Erynia* subgenus *Neopandora* (Zygomycotina: Entomophthorales) – Aviva Uziel & Robert G. Kenneth 153–163

Dimorphic fungus characteristic of fumonisin-producing strains of *Fusarium moniliforme* from Zhejiang – Wang Zhi-Gang, Cong Li-Ming, Liu Xiu-Mei, Tong Zhe, Cheng Su-Yun & Ge Su-Jun 165–167

MYCOTOXICOSES AND MYCOTOXINS

Properties of *Aspergillus tamarii, A. caelatus* and related species from acidic tea field soils in Japan – Yoko Ito, Stephen W. Peterson & Tetsuhisa Goto 169–175

Volume contents 177–179
